

<b>Title</b>	<b>Rapid Training Solution for Medical Equipment Preparer Occupation</b>
<b>Description</b>	<p>The jobs crisis triggered by COVID-19 has left a record number of Americans stripped of their work. These newly laid-off workers are seeking effective pathways that could help them get into high-growth occupations.</p> <p>Medical Equipment Preparer is an occupation with high projected growth, offers a living wage, and does not require a post-secondary degree or a license. Medical Equipment Preparers prepare, sterilize, install, or clean laboratory or healthcare equipment. They may also perform routine laboratory tasks and operate or inspect equipment. Top skills that are developed in this role include critical thinking, monitoring, quality control analysis, active listening and operation monitoring.</p>
<b>Expected Solutions</b>	An innovative tech-based training solution that would enable remote and rapid acquisition of job-ready skills for the Medical Equipment Preparer role. The solution to be presented in the form of flow charts, screens, and systems diagrams.
<b>Technologies and Tools</b>	Consider all currently available tools and technologies, including cloud computing, VR, AR, AI tools, ML, etc.
